

Lib~Chip Circ Desk Combo

Provide maximum flexibility at the lowest cost!

Dimensions:

This unit is built into existing library millwork. For individual component measurements, please contact a Libramation sales representative.

Power

Requirements:
110 VOC+ 15 amp

A combination Circulation Desk/Easy-Check station allows libraries to make the best use of staffing and facility space. The workstation comes equipped with :

- Lib~Digit Software (Staff Workstation and Self Check)
- Thermal receipt printer
- Touchscreen monitor and stainless steel swivel housing
- RFID Reader/Antenna
- Patron Card scanner

The combo desk provides the flexibility of operating as a full-service checkout station during high circulation periods, while converting to a self-check during quieter times.

This solution allows libraries with limited funds and limited space take advantage of all the benefits of an RFID staff station AND patron
