

The LibraMate

Specifications:

LibraMate 600

Capacity : 600 Boxes
Dimensions: 170 x 61.4 x 99" (4301 x 1559 x 2515 mm)

LibraMate 1000

Capacity: 1,000 Boxes
Dimensions: Wide Version 235.4 x 61.4 x 99" (5980 x 1559 x 2515 mm)
High Version 189.9 x 61.4 x 135" (4823 x 1559 x 3430 mm)

LibraMate 1500

Capacity : 1,500 Boxes
Dimensions: 235.4 x 61.4 x 135" (5981 x 1559 x 3430 mm)

Power

Requirements:

380 volt, 16 amp.

Holds Management and Automated Materials Dispenser

Libramation's LibraMate, an automated materials dispenser, provides a secure, efficient and 24/7 access solution for libraries to circulate popular materials, or manage patron holds. The LibraMate integrates with the all major ILS providers, communicating via the SIP2 protocol. Patrons are able to borrow, return and retrieve hold materials seamlessly without the need for staff intervention.

Utilizing RFID

The LibraMate circulates utilizing RFID technology. The use of RFID allows the unit to be used both for check out, and return, while maintaining security and providing you with ease of mind, knowing the correct materials are being returned to the unit. The unit comes equipped with a reader/antenna, and as items are being checked out, or returned, they pass over the reader, which will read the item tags, and communicate the information to the ILS. The security status on the tag will be adjusted accordingly, and the material status is changed in the ILS.
